Please do not allow the special interest lobbyist to infringe our first amendment rights with NAB's petition 04-160. I pay for this service and enjoy it very much. I find XM extremely useful and it offers the quality and verity I deserve as a paying customer.

I do not feel that The National Association of Broadcasters are entitled to mandate what I am permitted to hear on a pay service. As I willingly pay for Satellite radio, and it in no way affects public radio, I respectfully urge you to reject NAB's petition 04-160.

Thank you very much.
